Let's keep this conversation going and work to make the Magento community even more welcoming! r.troth.me/MageCom

Pretty sure there are still some Black Friday offers running now. But I hope you had a good one and it wasn't too stressful, whether you were working or shopping!

We've had so much awesome content from the community this month! Booked My Solution Specialist Exam

This month I have taken the leap, or maybe I was pushed by a certain Technical Director at iWeb. But none the less, I'm sure I will go into full meltdown soon. So many people have already reached out to help which I am so grateful for! If you have any advice, I would love to hear from you.
